

BRENT BARTON

for State Representative

Serving those

who have served us.

Thousands of Oregonians have served in Iraq and Afghanistan.

That's thousands of sons and daughters, brothers and sisters, parents and grandparents who put their lives on hold and sacrificed dearly to protect us.

Isn't time we started giving back to them?

If the Legislature starts listening to us, that's exactly what will happen.

Brent Barton is listening, and he'll be our voice for supporting veterans.

Brent has a plan to help combat veterans returning home from Iraq and Afghanistan get the support they need to resume their lives.

Providing veterans with more educational opportunities

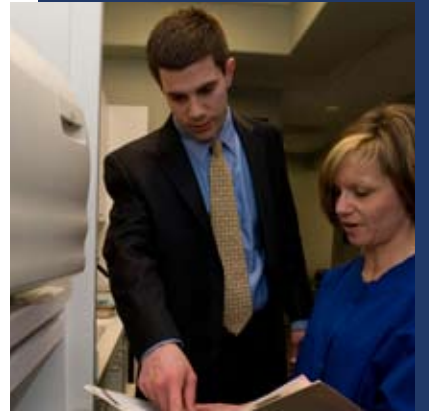

Veterans coming home from Iraq and Afghanistan deserve better access to the education they need to reenter the work force. Brent Barton supports increasing state financial support for veterans pursuing college, community college, or vocational training after they come home.

Brent Barton's plan includes helping veterans resume their careers

The economy's struggling. But, our veterans shouldn't have to struggle along with it to resume their careers. Brent Barton wants state agencies to connect veterans with prospective employers. Giving veterans credit for specialized military training when they apply for professional licenses also makes a lot of sense.

Affordable health care is a must for veterans and their families

Affordable health care for veterans and their families should be a guarantee, not a gamble. Unfortunately, the way the health care system works too many veterans can't get the health care they've earned. Brent Barton will work hard to break down barriers to affordable health care for veterans and their families.
