

Waste not. Want not.

It's a simple concept.
And one Brent Barton
wants to bring to Salem.

enough is enough

It's no wonder Oregon lacks the funds for affordable health care, quality education and job creation. Our Legislature has a habit of wasting our money on its own misguided priorities.

Brent Barton

wants to change that.

Brent will bring our voice to Salem.

He'll tell them how we want our tax dollars spent. And he'll work to make it happen.

Bringing Oregon jobs back to Oregonians

If you've wondered where all the good-paying jobs are, you're not alone. Oregon companies are shipping them overseas—and they're getting tax breaks in the process. Brent Barton grew up here. So did his father and his grandfather. He wants to see Oregon give Oregonians a chance again. He'll bring the high-wage jobs home by cracking down on the tax breaks given to companies that keep outsourcing our future.

Rewarding businesses that play by the rules

Illegal immigration is pinching our pocketbooks in more ways than you might imagine. Oregon companies who knowingly hire illegal workers and pay substandard wages and benefits are getting an unfair advantage over businesses that play by the rules. Brent Barton wants to stop state funding and increase penalties for companies who knowingly hire illegal immigrants.

*"Brent Barton has what it takes to clean up government waste. He is the future of our state."
— Jerry Young, Happy Valley*

Clearing the way for whistleblowers

The state spends millions of our dollars on contracts with private companies. Shouldn't someone be minding the store? Brent Barton will require that state contracts protect whistleblowers inside companies, so they're free to report cost overruns and waste without worrying about losing their jobs.

BRENT BARTON
for State Representative 

BRENT BARTON

for State Representative

a new voice. our voice.

We endorse Brent!
