

FLOORING THAT MAKES A DRAMATIC STATEMENT INSIDE, BUT LEAVES A SMALL FOOTPRINT ON OUR WORLD OUTSIDE.

LYPTUS® ENGINEERED SINGLE-STRIP FLOORING redefines versatility and responsibility. Manufactured with wood from eucalyptus trees grown on sustainable, CERFLOR-certified plantations in Brazil, Lyptus® flooring combines the beauty and versatility of exotic hardwood with inherent durability, value and respect for the environment.

- Wear layer manufactured according to new California formaldehyde regulations (CARB)*
- Single-strip flooring available in variety of ½-inch thick widths and lengths
- Tongue-and-groove construction
- Solid-sawn 1/8-inch wear layer that can be sanded and refinished

AN ELEGANT AND DURABLE CHOICE FOR ANY HOME.

LYPTUS® SOLID HARDWOOD FLOORING is harder than oak, less expensive than walnut, and as beautiful as Brazilian cherry. Manufactured from eucalyptus trees grown on sustainable, CERFLOR-certified plantations in Brazil, Lyptus® flooring makes it easy to enhance your home's floorplan, while minimizing your footprint on the world outside.

- Tongue-and-groove construction
- Available unfinished or in one of six pre-finished colors
- Low VOCs make it a healthy choice for every household
- Offered in variety of ¾-inch thick widths and lengths
- 25-year, limited-finish warranty for residential applications
